**Subject:** additional mitigation monitoring details

Hello,

Per the Hearing today, it was determined that we need a little more info with regard to the monitoring plan for the site. Please provide additional details with regard to the following:

- Who will complete the monitoring?
- Specific maintenance of the enhancement/restoration areas, to ensure plant success- for example, when to water, when to mow or not mow, and other additional maintenance actions.
- Specific expected plant survival percentages, to meet mitigation objectives by year 5.
- Any other pertinent info for the monitoring plan.

Let me know if you have any questions. This additional information can be submitted as an addendum to the report, and will be used to condition the building permit.

Thanks so much,
