Subject: additional project condition for RUE 2023101169
Date: Tuesday, January 23, 2024 10:52:09 AM

Hello,

Amended project condition for RUE:

“Existing on-site culvert within Type F stream may be retained in current state, and utilized for stream crossing purposes. This condition supersedes language regarding culvert removal within the approved Critical Area Report and Mitigation Plan dated October 2023. No additional access improvements to stream crossing are permitted without further County review.”

Thanks so much,

Heather Tschaekofske | Associate Planner/Biologist, MES
