RE: Master Planned Development for new public park and 1400 student school.

Case #: 20231008092

Dear Mr. McCormick,

Thank you for the opportunity to comment on the above proposed project. There are three areas of concern: School, Traffic, and Money

School: Our schools are a failed institution and getting worse

Students are not educated but indoctrinated

They are not taught how to think but what to think

Immorality and perversion are being encouraged & normalized

Parental authority and responsibility are undermined by the teachers

Solution: We need a new system not run by the government but by the parents

Traffic: Yelm highway cannot handle that kind of traffic.

Money: Schools are expensive to build and maintain. There are better uses for our money in Olympia.

We're a sorry excuse for a state capitol. With the natural beauty of the NW and the Sound in our back yard we have potential to be a Crown Jewel. Instead we offer graffiti art, homeless camps flanking the I-5 into the city, boarded up buildings and a seedy downtown. Not sure who is in charge here but we need a new plan with fresh perspectives and ideas. Surely we can do better than maintaining the status quo as it, too, is failing

Wishing you well,

Cheri Peterson
