Joshua Miller
2129 26th Ave NW
Olympia WA 98502

I use a well that is on parcel 83012300600. This well is within 50 feet of the development and has not been addressed.

This well provides my sole source of drinking water. I am concerned that this development will impact both the flow and quality of water. Pesticides from home lawns contaminating my drinking water is a great concern.

I am asking for a guarantee that the cost of connecting my house to city utilities will be covered by the developer.

I would like to receive decisions
