Thurston County

Jacinda Steltjes – Thurston
County

Mike Matlock – City of
Tumwater

Brad Medrud – City of
Tumwater

The Regional Housing Council's (RHC) Technical Working Team is comprised of staff members from each represented jurisdiction, along with staff from the Thurston County Housing Program. The lead of the Technical Working Team participates in the Regional Housing Council meetings in a non-voting capacity.

The Technical Working Team is responsible for providing objective technical feedback to the RHC regarding project and policy proposals.

The activities of the Technical Working Team align with strategies developed in the County's [Five-Year Homeless Crisis Response Plan](#) and include implementing the RHC's mission and vision.

The Technical Working Team meets weekly and coordinates various workgroups, including those that address evictions, siting, funding, a common understanding of terms, and relationships with other organizations that are addressing such issues in the community.

In turn, the Technical Working Team lead meets regularly with RHC's leadership to ensure the work of the Technical Working Team aligns with expectations of the RHC, reflects the RHC's mission and vision, and meets the needs of stakeholders.
