

## SSWAB

### Agenda Topic Submission Form

This form helps SSWAB determine whether a proposed agenda topic fits within our roles and responsibilities, and if so, the appropriate time allotment for the presentation during our meetings. The goal is that we can use this tool to prioritize topics that coincides with our roles and responsibilities as outlined in Resolution 15450.

You will be able to bring up the topic suggestions at our meetings during *SSWAB General Discussion* and then submit the form to the agenda subcommittee.

For topics determined to fall within SSWAB's roles and responsibilities, the subcommittee will then respond with a date and timeframe for the SSWAB sponsor to secure with their presenter and finalize agenda topic. The SSWAB sponsor must be willing to introduce the guest speaker, the reason for the presentation, and the value it will bring to the SSWAB.

**\*\*Staff does not need a SSWAB sponsor but should submit the form.**

SSWAB Member Sponsor's Name: Phyllis Farrell  
Date: 3.10.21

Proposed Presenter Name and Title: Heidi Seigelbaum, Stormwater Strategic Initiative Lead

Presenter Agency/Affiliation: Washington Stormwater Center at Washington State University

Presentation Date and Duration requested: March 18, 2021

Is the speaker willing and able to present on the requested date and duration? Yes

Summary of how it fits within SSWAB's key roles and responsibilities:

SSWAB members are interested in addressing stormwater pollution runoff from Thurston County into Puget Sound.

This presentation will feature information about the WSU Stormwater Center work and services, Thurston Co's coordination efforts, toxics in Puget Sound, programs to address/reduce toxics in Puget Sound, Thurston Co. monitoring stations and possible recommendations.

Please return this to the SSWAB Agenda Subcommittee members
