

THURSTON COUNTY MEDIC ONE
EMERGENCY MEDICAL SERVICES COUNCIL
VIRTUAL MEETING

AGENDA

June 16, 2021, 3:30 PM

- I. CALL TO ORDER/ROLL CALL
- II. APPROVAL OF AGENDA
- III. PUBLIC PARTICIPATION
- IV. REVIEW AND APPROVAL OF MINUTES
 - A. EMS Council May 19, 2021
 - B. Ops Committee June 3, 2021 (Informational Only)
- V. COMMITTEE REPORTS
 - A. Operations Committee – Ops Chair or Representative
 - B. West Region EMS Council – WREMS Representative
 - C. Staff Report – <https://www.thurstoncountywa.gov/ml/Pages/meetings.aspx>
- VI. OLD BUSINESS

	ITEM	PRESENTER	EXPECTED OUTCOME
A.	Levy Lid Lift Update	Hardin	Update
B.	Transport Delays/Diversions	Hardin	Update
C.			
D.			
- VII. NEW BUSINESS

	ITEM	PRESENTER	EXPECTED OUTCOME
A.	Special Project Applications	VanCamp	Approve
B.	2022/2023 Budget Presentation	Hardin/Miller	Presentation
C.			
D.			
- VIII. PUBLIC PARTICIPATION
- IX. GOOD OF THE ORDER
- X. ADJOURNMENT

This meeting is being held virtually. To attend this meeting, please follow the instructions below:

June 16, 2021, 3:30 pm

**Please join this meeting from your computer, tablet, or
smartphone**

<https://us02web.zoom.us/j/84351751023?pwd=MTVuVzErcU51aU5Mc3Z2Nk1cExhQT09>

**Meeting ID: 843 5175 1023
Passcode: EMSC**

**You can also dial in using your phone.
(For supported devices, tap a one-touch number
below to join instantly.)**

**+1 312 626 6799 US
+1 646 558 8656 US
Meeting ID: 843 5175 1023
Passcode: 490024**

Persons with hearing or speaking impairments can call Washington Relay Service at 711 or 1-800-833-6388

**Thurston County Medic One
Emergency Medical Services Council – Regular Meeting
Virtual – Zoom Meeting
May 19, 2021**

PRESENT: Cindy Hambly, Frank Kirkbride, John Ricks, Renata Rollins, Sheila Fay, Brian VanCamp, Margaret McPhee, Harry Miller, Stan Moon, Gary Edwards, Paul Perz, Angela Jefferson

ABSENT: Wayne Fournier

EXCUSED: Lenny Greenstein, Larry Fontanilla

GUESTS: Shawn Crimmins, Tony Kuzma, Steve Brooks

STAFF: Kurt Hardin, Sandra Bush, Ben Miller-Todd, Anna Lee Drewry

CALL TO ORDER/ROLL CALL – Chair Moon called the regular meeting of the Emergency Medical Services Council (EMSC) to order at 3:30 PM.

I. APPROVAL OF AGENDA – MSC – The agenda was amended as follows: Add Item C to New Business, EMS & Trauma Care Council Application for Ann Kellogg. (Kirkbride/Ricks) move to approve the agenda as amended, and this carried.

II. PUBLIC PARTICIPATION – None

III. REVIEW AND APPROVAL OF MINUTES

A. EMS COUNCIL – April 21, 2021 (McPhee/Hambly) move to approve and this carried.

B. OPERATIONS COMMITTEE – May 6, 2021 (informational only)

IV. COMMITTEE REPORTS

A. **OPERATIONS COMMITTEE:** Clem: TAC reviewed the on-line training platform and presented their recommendation to the Ops Committee, switching from 24/7 to EMSI, which Ops approved. VanCamp: 1) WREMS is recruiting for the Executive Director position. 2) MCI Committee is working on the Active Shooter plan. Homeland Security has approved a grant to help fund the plan. 3) TRU reported significant hold times at the hospital emergency departments. This will be discussed under New Business, Item B. 4) Ops appointed a Special Project committee, which will consist of Brian Hurley, Mark John, and Tony Kuzma. 5) EMS week is this week. There was an insert in last Sunday's edition of the Olympian.

B. **WEST REGION:** No meeting.

C. **STAFF REPORT:** Staff report is available on the website. [Thurston County | Medic One | Committee Meeting Information \(thurstoncountywa.gov\)](https://www.thurstoncountywa.gov/committees/medic-one). Kurt also mentioned that Jerett Latimer has been hired to fill the BAT II position, which was approved in the 2020 budget. Staff delivered ice-cream to all 12 agencies, along with a resolution signed by the BoCC, as recognition for EMS week.

V. OLD BUSINESS

- A. Levy Lid Lift Update – Department of Revenue suggested some technical corrections to the resolution for the ballot measure, and these corrections were put in place by the BoCC on May 4th. The ballot measure has been accepted by the Auditor's office and will be placed on the August 3rd primary. Hardin has presented information on the ballot measure to several stakeholder organizations. If there are additional stakeholders who would like Kurt to present this information to their board or council, please let him know.
- B. Budget Committee Update – The BoCC voted to go back to a biennium budget. The budget submission date is three days after the Medic One Levy Lid Lift vote so two budgets will be prepared for 2022/2023. Depending on the outcome of the vote will determine which budget is submitted to the BoCC. The two budgets will be presented to the EMSC at their June meeting for consideration, with action at the July meeting.

VI. NEW BUSINESS

- A. 2021 1st Qtr. Budget vs Actuals – Staff presented the 2021 1st Qtr. budget vs. actuals, which showed an overall 15% utilization. Hardin explained that traditionally the 1st quarter budget expenditures runs low. The \$42,768 in the ER&R will most likely not be spent this year with the exception of PADs for law enforcement. Also, ALS & BLS salaries are low because the BAT II position was not filled until the first part of May. Hardin also touched on COVID reimbursements; vaccine clinic expenditures January – March was \$29,489 and staff expects reimbursement for this from the federal government, thru Public Health. Staff is waiting on an available funding

source for \$77,071 in COVID expenditures.

- B. Transport Delays/Diversions – There has been an increased time frame for transporting patients to the emergency departments, partially because units are having lengthy wait times at the emergency rooms, which puts their unit out of service. Available beds and staffing issues have had an impact this, as well as a couple of other areas. Staff has reached out to the hospitals and this is a regional concern due to transports in from surrounding counties, and an increase in population in Thurston County. Miller-Todd said hospitals are working on internal issues for how they can improve on this. PSPH reported a significant increase in COVID patients waiting in the emergency room for a transfer to ICU, which as of yesterday was at a 99% capacity. The TRU committee is looking at different options: i.e., round robin, having an EMT or paramedic waiting with patients in the emergency room, after they are dropped off, so units can get back on the street. Hardin said PSPH is still on track and moving forward with their 53-bed expansion. The TRU committee has a scheduled meeting tomorrow where there will be further discussion on this.
- C. EMS & Trauma Care Council Application – WREMS submitted an EMS & Trauma Care Council application for Ann Kellogg, who will replace Kathy Pace, as a rep for Airlift NW. (McPhee/Kirkbride) move to approve the application, and this carried.

VII. PUBLIC PARTICIPATION – None

VIII. GOOD OF THE ORDER – None

IX. ADJOURNMENT – Meeting adjourned at 4:27.

**THURSTON COUNTY MEDIC ONE
OPERATIONS COMMITTEE ~ MEETING MINUTES
VIRTUAL
June 3, 2021**

PRESENT: Brian VanCamp, Larry Fontanilla, Brian Hurley, Wendy Hill, Steve Brooks, Malloree Fontanilla, Alex Christiansen, Chris Clem, Mark Gregory

ABSENT: Jeff DeHan, LouAnn Morriss, Russ Kaleiwahea, Mindy Churchwell, Mark John

EXCUSED:

GUESTS: Shawn Crimmins, Tony Kuzma, Jennifer Schmidt, Karen Weiss, Leonard Johnson, Matt Gantenbein

STAFF: Sandra Bush, Anna Lee Drewry

- I. CALL TO ORDER/ROLL CALL** – The meeting was called to order at 2:03.
- II. APPROVAL OF AGENDA –MSC** – New Business, Item E, OTEP Cancellations was added to the agenda. (Brooks/Hurley) move to approve the agenda as amended, and this carried.
- III. PUBLIC PARTICIPATION** – None
- IV. REVIEW AND APPROVAL OF MINUTES**
 1. Operations Committee – May 6, 2021 – (Brooks/Clem) move to approve and this carried.
 2. EMS Council – May 19, 2021 (informational only)
- V. COMMITTEE REPORTS**
 - A. West Region EMS Council** – Clem reported: 1) Board elections took place at the June 2nd meeting. Norma Pancake was elected as Chair, Tony Kuzma was elected as Vice-Chair, and Chris Clem was elected as Secretary/Treasurer. 2) The 2021/2022 budget was approved. There will not be a 2021 conference but there will be some regional trainings, specifically bringing cadaver labs back in as well as hosting some PHTLS classes, and other similar classes, throughout the region. 3) There were 6 applicants for the Executive Director position. Once the applications have been reviewed, interviews will be scheduled for later this month.
 - B. Subcommittees**
 1. Equipment Committee (EqC) – Crimmins reported: 1) No drug shortages. 2) Good stock on PPE, however gloves are at an extremely high price. 3) The glucometer exchange program is ongoing through Medic One. 4) Next meeting is scheduled for July 29th at 0930.
 2. Mass Casualty Incident (MCI) Committee – Crimmins reported: 1) Committee is looking at adding or changing some of the terminology in the plan, an example would be the casualty collection point, to be more in-line with law enforcement partners. Also, may be adding an ambulance exchange point. 2) Starting to build the new standalone hostile event plan. The goal over the next month or two is to have the plan developed, create some flip cards as an addendum to the job aids, or just a new standalone flip card, and have something to present to Ops in September. VanCamp reminded the committee that a Homeland Security grant was approved for the Active Shooter plan. 3) June 4th Crimmins will be participating in a train derailment exercise, which is being put on by Pierce County, as they are getting ready to start the line up again for Amtrak. Crimmins will bring back a report on this to the next Ops meeting.
 3. Training Advisory Committee (TAC) – Clem reported: 1) There was an OTEP update which will be covered under New Business. 2) See staff report for EMT class update. 3) Policies and processes will be looked at for reciprocity. 4) Next meeting is scheduled for June 17th.
 4. Transportation Resource Utilization Committee (TRU) / Hospital Diversion – There will be discussion under New Business, however Brooks did report the following: Tremendous volumes continue to go through both hospitals, so round robin continues to be the “go to” process for managing this, while agencies and private ambulance companies work on implementing processes to mitigate this.
 5. ePCR Committee – No report.
 - C. Staff Report** – Staff report is located on the website at – <https://www.thurstoncountywa.gov/m1/Pages/meetings.aspx>

VI. OLD BUSINESS

- A. EMS Council Action Report** – VanCamp reported – 1) The BoCC voted to place the levy lid lift on the August 3rd ballot. 2) Budget committee provided a report. 3) Staff presented the 2021 1st quarter budget vs actual report. 4) Transport delays and concerns were discussed. 5) VREMS application was approved for Ann Kellogg, who will replace Kathy Pace.

B. Special Project Applications – Hurley presented the Special Project Committee recommendation. The total for all 5 applications fell below the \$10,000 budget allowance, and all 5 were approved except for one item for FD12. The committee did not approve the safety glasses on their application because this item does not fall under special projects criteria and should be purchased with BLS funds. Also, when the committee approved West Thurston's manikins, it is with the emphasis that the manikins can be used by other departments who provide CPR classes. (Hurley/Brooks) move to approve recommending the committee's approval to the EMSC, and this carried.

VII. NEW BUSINESS

A. Transport Delays/Diversions – Clem reported: A couple of short-term plans are in motion to help bring some relief to the transport delay issue. First, PSPH has a plan to utilize the ambulance breezeway into the E.D. as a staffed waiting area with hospital beds, for lower acuity patients. June 21st is the target date to have this available for use. Second, there is discussion on having a surge plan in place where providers are communicating to the system that things are starting to go sideways, and additional staff may be needed.

B. Proposed Lacey Behavioral Health Facility – Drewry reported: City of Lacey has approved land use for the Lacey Behavioral Health Facility. This was endorsed by the EMSC last month.

C. Proposed Maple Lane Behavioral Health Facility – DSHS will be using part of this facility for involuntary holds.

D. In-Person Ops Meetings - VanCamp asked the committee for their input on going back to in-person meetings vs. staying with virtual meetings. Fully vaccinated attendees would not be required to wear a face covering, however if there are attendees who are not fully vaccinated, capacity continues to be limited to 50% of capacity and physical distancing must be maintained. Also, fully vaccinated attendees must attest to being vaccinated if they do not want to wear a mask. Only two committee members provided input, so VanCamp recommended staying with virtual meetings and discuss again at the September Ops meeting. (Gregory/Brooks) move to approve, and this carried.

E. OTEP Cancellations – Due to lack of instructor availability, there was a decrease in the number of a specific class, and VanCamp asked for discussion on this. Drewry explained that for departments with multiple sessions of the 'Affective' class, a percentage of the Medic One sponsored class was pulled back, leaving in-house instruction still available. There was further discussion on the need for OTEP instructors, which TAC will be addressing at their June 17th meeting.

VIII. GOOD OF THE ORDER – 1) Spring EMT class graduation is June 13th at 2:00 and will be held at SPSCC Olympia/Tumwater site. Capacity is limited to 400. 2) July Ops meeting will be cancelled due to Independence Day.

IX. ADJOURNMENT – (Clem/Johnson) move to adjourn at 3:08, and this carried.

Thurston County Medic One Special Projects Application - 2021

PROJECTS RATING MATRIX

Special Projects Budget: \$10,000

APPLICANT AGENCY & PROJECT NAME			TOTAL POINTS	Cost/ Benefit Ratio	ALS Response Time	Square Miles	Population	Multi- Agency	Alt Funding	Criteria	Comments MPD Approval?	Expenditure Detail				Special Projects Budget	Staff Comments

DESCRIPTION OF SPECIAL PROJECT - 2021

(Attach additional pages if necessary.)

Agency	Thurston County Fire District #6			
Project Title	Ballistic Vest Program			
Project Criteria				
<input type="checkbox"/> NEW EMS <input checked="" type="checkbox"/> ENHANCEMENT <input type="checkbox"/> REPLACEMENT <input type="checkbox"/> REPAIR <input type="checkbox"/> POTENTIAL IMPROVEMENT				
1. Why is the project necessary (what is the issue or problem)? Ballistic protection is paramount to the safety of our responders during high threat incidents such as active shooter, domestic violence and unknown metal situations.				
2. State the project objectives (what you want to accomplish). The objective is to provide a higher level of protection to our responders during high threat level situations while responding to in district and mutual aid request responses .				
3. Describe the method for project implementation (how you are going to do it). This program has already been implemented and has been working well. All existing responders have been trained to properly select their appropriate size. All new responders will be fitted and trained to select their appropriate size.				
4. Describe how you will evaluate the effectiveness (impact) of the project. Based on the various anatomy sizes of the existing and anticipated responders; the department needs to expand our inventory and size selection. With these funds, we will be expanding our stock and size variety to fit the needs of our diverse responders.				
5. Project Budget:				
	ITEM(S)	TOTAL COST	AGENCY SHARE	MEDIC ONE SHARE ¹ (Max 50%)
1)	4-Ballistic Vests	\$ 4,721.76	\$ 2,360.88	\$ 2,360.88
2)	4- Trauma Kits	\$ 272.12	\$136.06	\$ 136.06
3)	Mega Mover Pouches	\$ 240.24	\$ 120.12	\$ 120.12
4)	Reflective Lettering	\$ 120.96	\$ 60.48	\$ 60.48
5)	Dual Flagging Tape Dispenser	\$ 85.00	\$ 42.50	\$ 42.50
TOTALS		5440.08	2720.04	2720.04

Applicants requesting Medic One support at an amount greater than a 50% share must provide written justification for financial hardship. Refer to the information packet, Section V., Projects Cost Guidelines (Page 3) for required details.

DESCRIPTION OF SPECIAL PROJECT - 2021

(Attach additional pages if necessary.)

Agency	South Bay Fire Department			
Project Title	Rope Rescue Ops Enhancement			
Project Criteria				
<input type="checkbox"/> NEW EMS <input checked="" type="checkbox"/> ENHANCEMENT <input type="checkbox"/> REPLACEMENT <input type="checkbox"/> REPAIR <input type="checkbox"/> POTENTIAL IMPROVEMENT				
1. Why is the project necessary (what is the issue or problem)? Medic One's 2020 special project grant funded an initial Rope Rescue Training and Development project, which trained SBFD responders to awareness levels (volunteer) and operations and train-the-trainer (career staff) levels. In order to maintain proficiency and deployment capacity 24x7, we need to acquire additional equipment for training and to place appropriate response packages on all first due engines.				
2. State the project objectives (what you want to accomplish). - Fund one additional Access Bag Kit and Patient Package Bag kits - Fund an additional Stokes Basket - Fund replacement equipment for training expenditures (i.e., ropes damaged or not fit for life safety use after training)				
3. Describe the method for project implementation (how you are going to do it). - Purchase from Fire-Rescue Tools and Instruction. This matches vendor selected for last year, to allow consistency between engines. - Ongoing training will be scheduled annually per refresher and new member training, to allow maintenance of skills at the operations and awareness levels, respectively				
4. Describe how you will evaluate the effectiveness (impact) of the project. - At the end of 2020, we had 17 responders trained to awareness level. We anticipate ending 2021 with 25 or greater. - At the end of 2020, we had 12 responders trained to operations level. We anticipate ending 2021 with 16 or greater. - At the end of 2020, we had 1 serviceable/deployable engine kit with stokes basket. We anticipate ending 2021 with two.				
5. Project Budget:				
	ITEM(S)	TOTAL COST	AGENCY SHARE	MEDIC ONE SHARE ¹ (Max 50%)
1)	Access Bag Kit	1400	700	700
2)	Patient Package Bag Kit	800	400	400
3)	Replacement Rope and Parts	400	200	200
4)	Stokes Basket	1000	500	500
5)				
TOTALS		3600	1800	1800

Applicants requesting Medic One support at an amount greater than a 50% share must provide written justification for financial hardship. Refer to the information packet, Section V., Projects Cost Guidelines (Page 3) for required details.

DESCRIPTION OF SPECIAL PROJECT - 2021

(Attach additional pages if necessary.)

Agency	South Thurston Fire & EMS			
Project Title	Equipment Enhancement			
Project Criteria				
<input type="checkbox"/> NEW EMS <input checked="" type="checkbox"/> ENHANCEMENT <input type="checkbox"/> REPLACEMENT <input type="checkbox"/> REPAIR <input type="checkbox"/> POTENTIAL IMPROVEMENT				
1. Why is the project necessary (what is the issue or problem)? 1) Backpack EMS bags: The requested bags are a backpack-style and will be placed on our wildland vehicles and Chief vehicle. Previous situations in remote areas of our district and mutual aid districts have made us realize that the current bags are cumbersome and hard to pack long distances while trying to access or move patients through rough terrain. 2) Safety Glasses: The current safety glasses are uncomfortable for many people, causing them to not want to wear them. They also scratch easy and tend to get left places and treated like a consumable item. 3) Pediatric EMS bags: Currently we only have one adequate pediatric EMS kit and it's on our first out aid unit. On average, 22-24% of our calls overlap, increasing the likelihood that a backup aid unit could be responding to a pediatric medical call.				
2. State the project objectives (what you want to accomplish). 1) Backpack EMS bags: The new EMS bags could be worn like a backpack and hold all necessary BLS supplies. The result would be increased safety for the provider by leaving their hands free to cross rugged terrain to care for a patient. 2) Safety Glasses: Reduce waste and save money by not replacing safety glasses often and provide a more comfortable eye protection to promote wearing them more. 3) Pediatric EMS bags: Our goal is to have pediatric EMS kits on all of our aid units.				
3. Describe the method for project implementation (how you are going to do it). 1) Backpack EMS Bags: We would use grant funds to purchase the bags and fill them with existing BLS supply inventory. The bags would be incorporated into training to get familiar and comfortable with them. 2) Safety Glasses: Each member would be issued, and responsible for, one pair of safety glasses. They would be issued like any other equipment, each member would be required to keep them clean and maintained. 3) Pediatric EMS bags: We will purchase 3 more bags like the one we currently have and stock it with our current EMS supplies.				
4. Describe how you will evaluate the effectiveness (impact) of the project. 1) Backpack EMS Bags: The overall effectiveness can really only be evaluated by use. The bags would be used in training to get members familiar and comfortable with the, but the impact would ultimately measured during an actual incident. 2) Safety Glasses: The effectiveness could be measured through historical purchase records compared to post-purchase replacement frequency and cost. Also by tracking the reason for replacement, such as damage, lost, etc. 3) Pediatric EMS bags: The bags will be equipped and ready on all aid units. There won't be a need to move the bag anytime units are swapped.				
5. Project Budget:				
	ITEMS	TOTAL COST	AGENCY SHARE	MEDIC ONE SHARE (Max 50%)

DESCRIPTION OF SPECIAL PROJECT - 2021

(Attach additional pages if necessary.)

Agency	Bald Hills Fire Protection District 17			
Project Title	4-Gas Monitors			
Project Criteria				
<input type="checkbox"/> NEW EMS <input type="checkbox"/> ENHANCEMENT <input type="checkbox"/> REPLACEMENT <input type="checkbox"/> REPAIR <input type="checkbox"/> POTENTIAL IMPROVEMENT				
1. Why is the project necessary (what is the issue or problem)? To enhance the assessment of potentially harmful atmospheres within structures by purchasing four additional 4-gas monitors and deploying them on BLS units.				
2. State the project objectives (what you want to accomplish). Purchase four additional 4-gas monitors and place them on BLS units that respond directly to EMS and other emergency scenes.				
3. Describe the method for project implementation (how you are going to do it). We have identified a source for the model 4-gas monitors we use. Once the special project is approved we will purchase four 4-gas monitors and place them on BLS units that respond to EMS and other emergency scenes. Regular calibration, training and use of the equipment will continue.				
4. Describe how you will evaluate the effectiveness (impact) of the project. Impact will be observed through the prompt and effective use of atmospheric monitoring at emergency scenes.				
5. Project Budget:				
	ITEM(S)	TOTAL COST	AGENCY SHARE	MEDIC ONE SHARE ¹ (Max 50%)
1)	(4) GX-2009 4-gas (O2, LEL, CO, H2S) monitors	\$ 2,142.00	\$ 1,071.00	\$ 1,071.00
2)				
3)				
4)				
5)				
TOTALS		2142	1071	1071

Applicants requesting Medic One support at an amount greater than a 50% share must provide written justification for financial hardship. Refer to the information packet, Section V., Projects Cost Guidelines (Page 3) for required details.

DESCRIPTION OF SPECIAL PROJECT - 2021

(Attach additional pages if necessary.)

Agency	West Thurston Regional Fire Authority			
Project Title	Citizen Adult CPR Manikin Enhancement			
Project Criteria				
<input type="checkbox"/> NEW EMS <input type="checkbox"/> ENHANCEMENT <input type="checkbox"/> REPLACEMENT <input type="checkbox"/> REPAIR <input type="checkbox"/> POTENTIAL IMPROVEMENT				
1. Why is the project necessary (what is the issue or problem)? We have a robust Community CPR Program at West Thurston and Medic One. After many years of use they have aged and deteriorated, many of them are broke permanently. This is our opportunity to enhance our program with the newer citizen CPR technology buy using newer style manikins and strengthen student learning by allowing the student to see real and immediate feedback on their CPR quality.				
2. State the project objectives (what you want to accomplish). <small>1. Using LED light feedback on the CPR Manikins for public education simulates to the student high-quality resuscitation technique based on current CPR guidelines and as well as every aspect of the chain of survival that can be impacted. 2. Simulation is not only about the process or the tools we use. We use the time we have them in a learning environment to focus on community data about CPR save rates, Stroke signs, symptoms and treatments that are utilized to improve patient survival rates from the bystander care to hospital recovery. 3. Reduce fear and anxiety of CPR through positive feedback on the skills that they learn. Empowering people and reducing barriers that people erect out of fear from disease or legal consequences when people die.</small>				
3. Describe the method for project implementation (how you are going to do it). <small>1. Growth: Continue to grow our CPR classes through our website, social media and word of mouth. 2. Simulation: Using "enactment" in education has been linked to improved knowledge, retention, and the improvements in quality and "return to life" endings that people are willing to share. 3. Standards: AHA educational standards requires feedback to students on CPR progression. The LED Light-up sensors on the CPR manikin allows for the student to see if compression rate and depth are adequately producing oxygenated blood to the brain and heart.</small>				
4. Describe how you will evaluate the effectiveness (impact) of the project. <small>Practice is the hardest part of learning, and training is the essence of transformation. For a professional this is easily understood and measured. For the public it takes work and feedback to the person that preformed that CPR. HIPAA does not easily allow for department members to talk to bystanders about patient outcomes. The best and most effective way we measure citizen CPR success is by Thurston County Feedback on requested CPR outcomes. This simple data is a tool that can help the CPR community educators know they meet their program goals and objectives. The use of innovative equipment that is set to the newest of standards and fast quality feedback allows educators the ability to train and inspire people learning CPR.</small>				
5. Project Budget:				
ITEM(S)		TOTAL COST	AGENCY SHARE	MEDIC ONE SHARE ¹ (Max 50%)
1)	7 Adult Brayden CPR Manikins (\$561 each tax incl)	\$ 3,927.00	\$ 1,964.00	\$ 1,963.00
2)	4 pack AED Trainers AED Superstore tax incl.	\$ 342.00	176.00	\$ 176.00
3)	2 box Practi-Mask for disposable Valves to meet increasing Health Safety Standards tax. incl.	\$ 94.00	\$ 47.00	\$ 47.00
4)	55 pack of additional replacement Valves for CPR Masks	\$ 46.00	\$ 23.00	\$ 23.00
5)				
TOTALS		4409	2210	2209

Applicants requesting Medic One support at an amount greater than a 50% share must provide written justification for financial hardship. Refer to the information packet, Section V., Projects Cost Guidelines (Page 3) for required details.
