

## **Recurring Claim Form**

A recurring claim streamlines the reimbursement of qualified expenses by allowing you to automate claims if you make fixed payments to a service provider. This method of reimbursement cannot be used if your payments fluctuate or change during the course of the plan year.

Claims will be processed, while you are an active participant, until the Service End Date indicated below, or the last day of the plan year. Reimbursements will be issued based on your employer's preset reimbursement schedule.

This form is intended to act as the third-party substantiation required for claim reimbursement. You are still responsible for obtaining and retaining documentation for expenses reimbursed using this method. Please do not submit manual claims for the expenses detailed below.
