## More Digital Estate Planning FAQs

### Q. Are documents stored online?

A. Yes, documents will be saved within your account and you can come back to access them at any time using your email and password.

### Q. Will I still be able to see an attorney for estate planning?

A. Yes, you will still have access to our attorney network to work directly with an attorney on your estate plan. The digital estate planning solution is just another option to get the help you need.

### Q. What if I do not have access to sign and notarize my documents online?

A. If you are in a state where video notary is not available, you simply need to print and sign your documents following the instructions on the cover page of each document.

### Q. Where can I get access to a notary?

A. Notaries are widely available at most banks, UPS, and FedEx locations.

### Q. How does the video notary<sup>2</sup> process work?

A. Members who live in a state where the video notary feature is available will be notified of live notary availability once they complete their documents. If a notary is not available at the time, the member will have the option to schedule online notary later.

Before you start the notary process you'll do a system and technology check to make sure that your video, speaker and microphone work properly. You will need to have your driver's license on hand as an image will be captured of both sides to confirm your identity.

During the notary process, you will need to be by yourself, in a location with no distractions, unless you are doing a joint will with your spouse, which requires that both individuals are present.

A typical notary session takes 30-45 minutes. A notary and two witnesses, that we provide, will be present. The session will be recorded and the notary will begin the process by explaining the documents and how the notarization will work. You must be physically located in the state you reside in at the time of the session.

At the end of the session, you will receive the documents electronically signed and generated with a notary seal.
