TO: Sharon Lumbantobing, Thurston County Community Planning & Economic Development
FROM: Lyndsey Smith, Thurston County Environmental Health Division 
SUBJECT: Project 2022101893, Folder Sequence 22-105051 XI, Tax Parcel 12609130100, Pryor Reasonable Use Exception (RUE)

A revised site plan has been routed to this agency for review and comment. This RUE is a request to place a new single-family residence within existing critical area. The proposed residence would be served by a proposed on-site septic system and proposed single-family well. The property is currently undeveloped, but previously contained a temporary RV and multiple storage containers which have since been removed. An on-site septic system design has been reviewed and approved by Environmental Health under Project #2021100198. **Environmental Health's review is complete, and has no objection to the RUE request.**
