Hi Lacy,

After review and discussion with County Staff, no exception taken for water/sewer on preliminary approval. All comments I have can be addressed/resolved when reviewing the final Construction Documents.

The project has already submitted Drainage Scoping and was reviewed a while back. We will review the final storm design once the project receives preliminary approval, or if the developer requests us to review prior to said approval.

Let me know if you have any questions and we can discuss.

FUTURE OUT OF OFFICE: SEPTEMBER 12TH – 23RD

Thank you,

Zach Severs, PE

Hi, Zach –

Thanks for following up. It would be great to go over Torren's comments and know where things stand with this project regarding them all. I am available until 4pm today or all day tomorrow. Please call my cell number below anytime in there.

Thanks,
