

WASHINGTON STATE

Joint Aquatic Resources Permit Application (JARPA) Form^{1,2} [help]

USE BLACK OR BLUE INK TO ENTER ANSWERS IN THE WHITE SPACES BELOW.

US Army Corps
of Engineers
Seattle District

AGENCY USE ONLY

Date received: _____

Agency reference #: _____

Tax Parcel #(s): _____

Part 1–Project Identification

1. Project Name (A name for your project that you create. Examples: Smith's Dock or Seabrook Lane Development) [help]

Mazanti Shellfish Farm – Henderson Inlet

Part 2–Applicant

The person and/or organization responsible for the project. [help]

2a. Name (Last, First, Middle)

Taylor Shellfish Farms

2b. Organization (If applicable)

Taylor Shellfish Company

2c. Mailing Address (Street or PO Box)

130 SE Lynch Rd

2d. City, State, Zip

Shelton, WA 98584

2e. Phone (1)

360-432-3348

2f. Phone (2)

360-426-6178

2g. Fax

360-432-3350

2h. E-mail

ErinE@taylorshellfish.com

¹Additional forms may be required for the following permits:

- If your project may qualify for Department of the Army authorization through a Regional General Permit (RGP), contact the U.S. Army Corps of Engineers for application information (206) 764-3495.
- Not all cities and counties accept the JARPA for their local Shoreline permits. If you need a Shoreline permit, contact the appropriate city or county government to make sure they accept the JARPA.

²To access an online JARPA form with [help] screens, go to

http://www.epermitting.wa.gov/site/alias_resourcecenter/jarpa_jarpa_form/9984/jarpa_form.aspx.

Part 3—Authorized Agent or Contact

Person authorized to represent the applicant about the project. (Note: Authorized agent(s) must sign 11b of this application.) [\[help\]](#)

3a. Name (Last, First, Middle)			
Ewald, Erin			
3b. Organization (If applicable)			
Taylor Shellfish Company			
3c. Mailing Address (Street or PO Box)			
130 SE Lynch Rd			
3d. City, State, Zip			
Shelton, WA 98584			
3e. Phone (1)	3f. Phone (2)	3g. Fax	3h. E-mail
360-432-3348	360-426-6178	360-432-3350	ErinE@taylorshellfish.com

Part 4—Property Owner(s)

Contact information for people or organizations owning the property(ies) where the project will occur. Consider both **upland and aquatic** ownership because the upland owners may not own the adjacent aquatic land. [\[help\]](#)

- ☐ Same as applicant. (Skip to Part 5.)
- ☐ Repair or maintenance activities on existing rights-of-way or easements. (Skip to Part 5.)
- ☐ There are multiple upland property owners. Complete the section below and fill out JARPA Attachment A for each additional property owner.
- ☐ Your project is on Department of Natural Resources (DNR)-managed aquatic lands. If you don't know, contact the DNR at (360) 902-1100 to determine aquatic land ownership. If yes, complete JARPA Attachment E to apply for the Aquatic Use Authorization.

4a. Name (Last, First, Middle)			
Mazanti, Kyle & Cheryl			
4b. Organization (If applicable)			
KCBK Incorporated			
4c. Mailing Address (Street or PO Box)			
PO Box 1416			
4d. City, State, Zip			
Silverthorne, CO 80498			
4e. Phone (1)	4f. Phone (2)	4g. Fax	4h. E-mail
(360) 426-6178	(360) 868-6241	(360) 427-0327	ErinE@TaylorShellfish.com

Part 5—Project Location(s)

Identifying information about the property or properties where the project will occur. [\[help\]](#)

- ☐ There are multiple project locations (e.g. linear projects). Complete the section below and use [JARPA Attachment B](#) for each additional project location.

5a. Indicate the type of ownership of the property. (Check all that apply.) [help]			
<input checked="" type="checkbox"/> Private			
<input type="checkbox"/> Federal			
<input type="checkbox"/> Publicly owned (state, county, city, special districts like schools, ports, etc.)			
<input type="checkbox"/> Tribal			
<input type="checkbox"/> Department of Natural Resources (DNR) – managed aquatic lands (Complete JARPA Attachment E)			
5b. Street Address (Cannot be a PO Box. If there is no address, provide other location information in 5p.) [help]			
Tidelands associated with OL 5-19-1W			
5c. City, State, Zip (If the project is not in a city or town, provide the name of the nearest city or town.) [help]			
Olympia, WA 98516			
5d. County [help]			
Thurston County			
5e. Provide the section, township, and range for the project location. [help]			
¼ Section	Section	Township	Range
	05	19North	1 West, W.M.
5f. Provide the latitude and longitude of the project location. [help]			
• Example: 47.03922 N lat. / -122.89142 W long. (Use decimal degrees - NAD 83)			
47.16868 N / -122.82560 W			
5g. List the tax parcel number(s) for the project location. [help]			
• The local county assessor's office can provide this information.			
93000-10-0000			
5h. Contact information for all adjoining property owners. (If you need more space, use JARPA Attachment C.) [help]			
Name	Mailing Address		Tax Parcel # (if known)

5i. List all wetlands on or adjacent to the project location. [\[help\]](#)

None

5j. List all waterbodies (other than wetlands) on or adjacent to the project location. [\[help\]](#)

This project is located on marine tidelands in Henderson Inlet

5k. Is any part of the project area within a 100-year floodplain? [\[help\]](#)

☐ Yes ☒ No ☐ Don't know

5l. Briefly describe the vegetation and habitat conditions on the property. [\[help\]](#)

This project takes place on private tidelands. This is a sandy/muddy/gravelly beach with minimal to no artificial structures. There are no eelgrass beds based on an eelgrass delineation completed July 2019. WA DNR seagrass monitoring maps were viewed 6/2022 and no seagrass, kelp, or other priority habitat was mapped to be present in this area. The uplands are developed for single family residential and include significant shoreline armoring throughout the work area.

5m. Describe how the property is currently used. [\[help\]](#)

The property is currently used for low intensity private recreation including beach walking and boating.

5n. Describe how the adjacent properties are currently used. [\[help\]](#)

The tidelands to the north and south are used for low intensity private recreation including beach walking and boating. The uplands adjacent to the property to the east are privately owned and developed for single family residences.

5o. Describe the structures (above and below ground) on the property, including their purpose(s) and current condition. [\[help\]](#)

None

5p. Provide driving directions from the closest highway to the project location, and attach a map. [\[help\]](#)

There is no upland easement onto the property. The farm will be accessed by boat only. It is located on the NW corner of Johnson Point in Henderson inlet.

Part 6—Project Description

6a. Briefly summarize the overall project. You can provide more detail in 6b. [\[help\]](#)

This project is proposed for commercial intertidal culture of geoduck, ~~Manila clams, and oysters~~. Juvenile geoduck clams will be planted in the substrate by hand. PVC and/or mesh nursery tubes are inserted into the substrate and planted by hand with geoduck seed. Canopy nets may placed over the tubes and secured with bent rebar pushed flush into the substrate every 25'. Tubes and nets are removed after approximately two years. Harvest occurs within 5-7 years of planting. ~~Manila clam seed is broadcast by hand into the intertidal area that may or may not have been netted. Harvest takes place by hand digging or mechanical harvest into sacks for pick up by boat and trucked to processing plant. Oysters may be grown in both bags secured to lines along the substrate, or directly on bottom. Harvest takes place by manually forking oysters into tubs for pick up and transfer. Bags are pulled and emptied onto barge for transfer.~~

6b. Describe the purpose of the project and why you want or need to perform it. [\[help\]](#)

The purpose is to cultivate shellfish seed to grow out for human consumption.

6c. Indicate the project category. (Check all that apply) [\[help\]](#)

- | | | | | |
|--|--|--|---|---------------------------------------|
| <input checked="" type="checkbox"/> Commercial | <input type="checkbox"/> Residential | <input type="checkbox"/> Institutional | <input type="checkbox"/> Transportation | <input type="checkbox"/> Recreational |
| <input type="checkbox"/> Maintenance | <input type="checkbox"/> Environmental Enhancement | | | |

6d. Indicate the major elements of your project. (Check all that apply) [\[help\]](#)

<input checked="" type="checkbox"/> Aquaculture <input type="checkbox"/> Bank Stabilization <input type="checkbox"/> Boat House <input type="checkbox"/> Boat Launch <input type="checkbox"/> Boat Lift <input type="checkbox"/> Bridge <input type="checkbox"/> Bulkhead <input type="checkbox"/> Buoy <input type="checkbox"/> Channel Modification	<input type="checkbox"/> Culvert <input type="checkbox"/> Dam / Weir <input type="checkbox"/> Dike / Levee / Jetty <input type="checkbox"/> Ditch <input type="checkbox"/> Dock / Pier <input type="checkbox"/> Dredging <input type="checkbox"/> Fence <input type="checkbox"/> Ferry Terminal <input type="checkbox"/> Fishway	<input type="checkbox"/> Float <input type="checkbox"/> Floating Home <input type="checkbox"/> Geotechnical Survey <input type="checkbox"/> Land Clearing <input type="checkbox"/> Marina / Moorage <input type="checkbox"/> Mining <input type="checkbox"/> Outfall Structure <input type="checkbox"/> Piling/Dolphin <input type="checkbox"/> Raft	<input type="checkbox"/> Retaining Wall (upland) <input type="checkbox"/> Road <input type="checkbox"/> Scientific Measurement Device <input type="checkbox"/> Stairs <input type="checkbox"/> Stormwater facility <input type="checkbox"/> Swimming Pool <input type="checkbox"/> Utility Line
<input type="checkbox"/> Other:			

6e. Describe how you plan to construct each project element checked in 6d. Include specific construction methods and equipment to be used. [\[help\]](#)

- Identify where each element will occur in relation to the nearest waterbody.
- Indicate which activities are within the 100-year floodplain.

PVC and/or mesh nursery tubes, approximately 9 - 18" in length, will be manually placed in the lower intertidal substrate at a density of approximately one tube per square foot. Three to five geoduck seed will be placed in the tubes. The tubes may then be covered with canopy netting and secured with bent rebar pushed into the surrounding substrate as flush as possible every 25'. After approximately 2 years, the tubes are removed and the area may be re-netted if predation is expected to threaten the crop. The net is removed once it can be determined the geoduck can evade predation and the beach is left undisturbed until harvest. Harvest occurs after approximately 5-7 years from planting. See map for acreage planted in geoduck.

~~Manila clam seed is broadcast by hand in to the intertidal area that may or may not have been netted. Harvest takes place mechanically, or by hand digging into sacks for pick up by boat and trucked to processing plant. Hatchery seed is used. See map for acreage planted in clams. Harvest occurs after approximately 3-5 years.~~

~~Oysters may be grown in both bags which are secured to lines along the bottom, or on bottom. Harvest takes place by manually forking oysters in to tubs for pick up and transfer. Bags are pulled and emptied onto barge for transfer. Hatchery seed is used. Harvest occurs after approximately 1-3 years. See map for acreage planted in Oysters.~~

6f. What are the anticipated start and end dates for project construction? (Month/Year) [\[help\]](#)

- If the project will be constructed in phases or stages, use [JARPA Attachment D](#) to list the start and end dates of each phase or stage.

Start Date: Upon permit
approval

End Date: On going

☐ See JARPA Attachment D

6g. Fair market value of the project, including materials, labor, machine rentals, etc. [\[help\]](#)

Approximately \$150K

6h. Will any portion of the project receive federal funding? [\[help\]](#)

- **If yes,** list each agency providing funds.

☐ Yes ☒ No ☐ Don't know

Part 7--Wetlands: Impacts and Mitigation

- ☐ Check here if there are wetlands or wetland buffers on or adjacent to the project area.
(If there are none, skip to Part 8.) [\[help\]](#)

7a. Describe how the project has been designed to avoid and minimize adverse impacts to wetlands. [\[help\]](#)

☐ Not applicable

7b. Will the project impact wetlands? [help]
<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Don't know
7c. Will the project impact wetland buffers? [help]
<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Don't know
7d. Has a wetland delineation report been prepared? [help]
<ul style="list-style-type: none"> If Yes, submit the report, including data sheets, with the JARPA package.
<input type="checkbox"/> Yes <input type="checkbox"/> No
7e. Have the wetlands been rated using the Western Washington or Eastern Washington Wetland Rating System? [help]
<ul style="list-style-type: none"> If Yes, submit the wetland rating forms and figures with the JARPA package.
<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Don't know
7f. Have you prepared a mitigation plan to compensate for any adverse impacts to wetlands? [help]
<ul style="list-style-type: none"> If Yes, submit the plan with the JARPA package and answer 7g. If No, or Not applicable, explain below why a mitigation plan should not be required.
<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Don't know
7g. Summarize what the mitigation plan is meant to accomplish, and describe how a watershed approach was used to design the plan. [help]
7h. Use the table below to list the type and rating of each wetland impacted, the extent and duration of the impact, and the type and amount of mitigation proposed. Or if you are submitting a mitigation plan with a similar table, you can state (below) where we can find this information in the plan. [help]

Activity (fill, drain, excavate, flood, etc.)	Wetland Name ¹	Wetland type and rating category ²	Impact area (sq. ft. or Acres)	Duration of impact ³	Proposed mitigation type ⁴	Wetland mitigation area (sq. ft. or acres)

¹ If no official name for the wetland exists, create a unique name (such as "Wetland 1"). The name should be consistent with other project documents, such as a wetland delineation report.

² Ecology wetland category based on current Western Washington or Eastern Washington Wetland Rating System. Provide the wetland rating forms with the JARPA package.

³ Indicate the days, months or years the wetland will be measurably impacted by the activity. Enter "permanent" if applicable.

⁴ Creation (C), Re-establishment/Rehabilitation (R), Enhancement (E), Preservation (P), Mitigation Bank/In-lieu fee (B)

Page number(s) for similar information in the mitigation plan, if available: _____

7i. For all filling activities identified in 7h, describe the source and nature of the fill material, the amount in cubic yards that will be used, and how and where it will be placed into the wetland. [\[help\]](#)

7j. For all excavating activities identified in 7h, describe the excavation method, type and amount of material in cubic yards you will remove, and where the material will be disposed. [\[help\]](#)

Part 8—Waterbodies (other than wetlands): Impacts and Mitigation

In Part 8, "waterbodies" refers to non-wetland waterbodies. (See Part 7 for information related to wetlands.) [\[help\]](#)

☐ Check here if there are waterbodies on or adjacent to the project area. (If there are none, skip to Part 9.)

8a. Describe how the project is designed to avoid and minimize adverse impacts to the aquatic environment. [\[help\]](#)

☐ Not applicable

This project is designed to avoid and minimize potential adverse impacts to the environment by complying with all terms, conditions, and conservations associated with the programmatic consultation for shellfish farming activities in Washington State inland marine waters between the Seattle District Corps of Engineers and the National Marine Fisheries Service and the U.S. Fish and Wildlife Service. See Programmatic Biological Assessment, Shellfish Activities in Washington State Inland Marine Waters, U.S. Army Corps of Engineers Regulatory Program, October 2015; Programmatic Biological Opinion, National Marine Fisheries Service, September 2016. Programmatic Biological Opinion for Shellfish Activities in Washington State Marine Waters, U.S. Fish and Wildlife Service, August 2016.

Additionally, Taylor Shellfish employs Environmental Codes of Practice to ensure all activities meet environmental standards. These measures include:

1. Routine mapping, or documentation of critical areas
2. Documentation of farm ECOP site visits
3. Employee training to ensure compliance of conservation measures

Finally, the cultivated shellfish at this farm are expected to provide important environmental benefits. The cultivated shellfish and associated gear will provide three-dimensional structure, water quality enhancement, eutrophication moderation, and facilitation of benthic-pelagic coupling of nutrients. Shellfish culture requires a healthy marine ecosystem to be successful, and the farm will be operated and monitored to ensure the health of the local ecosystem.

8b. Will your project impact a waterbody or the area around a waterbody? [\[help\]](#)

☒ Yes ☐ No Minimal and localized impacts may occur, including positive impacts.

8c. Have you prepared a mitigation plan to compensate for the project's adverse impacts to non-wetland waterbodies? [\[help\]](#)

- **If Yes**, submit the plan with the JARPA package and answer 8d.
- **If No, or Not applicable**, explain below why a mitigation plan should not be required.

☐ Yes ☒ No ☐ Don't know

This project is designed to avoid and minimize potential adverse impacts to the environment by complying with all terms, conditions, and conservations associated with the programmatic consultation for shellfish farming activities in Washington State inland marine waters between the Seattle District Corps of Engineers and the National Marine Fisheries Service and the U.S. Fish and Wildlife Service. See Programmatic Biological Assessment, Shellfish Activities in Washington State Inland Marine Waters, U.S. Army Corps of Engineers Regulatory Program, October 2015; Programmatic Biological Opinion, National Marine Fisheries Service, September 2016. Programmatic Biological Opinion for Shellfish Activities in Washington State Marine Waters, U.S. Fish and Wildlife Service, August 2016.

8d. Summarize what the mitigation plan is meant to accomplish. Describe how a watershed approach was used to design the plan.

- If you already completed 7g you do not need to restate your answer here. [\[help\]](#)

NA

8e. Summarize impact(s) to each waterbody in the table below. [\[help\]](#)

Activity (clear, dredge, fill, pile drive, etc.)	Waterbody name ¹	Impact location ²	Duration of impact ³	Amount of material (cubic yards) to be placed in or removed from waterbody	Area (sq. ft. or linear ft.) of waterbody directly affected
Minimal and localized effects from activities may occur. Positive effects may also occur.	Henderson Inlet	Marine tidelands	Temporary effects during short periods	None	See Map and map description

¹ If no official name for the waterbody exists, create a unique name (such as "Stream 1") The name should be consistent with other documents provided.

² Indicate whether the impact will occur in or adjacent to the waterbody. If adjacent, provide the distance between the impact and the waterbody and indicate whether the impact will occur within the 100-year flood plain.

³ Indicate the days, months or years the waterbody will be measurably impacted by the work. Enter "permanent" if applicable.

8f. For all activities identified in 8e, describe the source and nature of the fill material, amount (in cubic yards) you will use, and how and where it will be placed into the waterbody. [\[help\]](#)

NA

8g. For all excavating or dredging activities identified in 8e, describe the method for excavating or dredging, type and amount of material you will remove, and where the material will be disposed. [\[help\]](#)

NA

Part 9–Additional Information

Any additional information you can provide helps the reviewer(s) understand your project. Complete as much of this section as you can. It is ok if you cannot answer a question.

9a. If you have already worked with any government agencies on this project, list them below. [\[help\]](#)

Agency Name	Contact Name	Phone	Most Recent Date of Contact

9b. Are any of the wetlands or waterbodies identified in Part 7 or Part 8 of this JARPA on the Washington Department of Ecology's 303(d) List? [\[help\]](#)

- If Yes, list the parameter(s) below.
- If you don't know, use Washington Department of Ecology's Water Quality Assessment tools at: <https://ecology.wa.gov/Water-Shorelines/Water-quality/Water-Improvement/Assessment-of-state-waters-303d>.

☒ Yes ☐ No

Bacteria and Temperature

11c. Property Owner Signature (if not applicant) [\[help\]](#)

Not required if project is on existing rights-of-way or easements (provide copy of easement with JARPA).

I consent to the permitting agencies entering the property where the project is located to inspect the project site or any work. These inspections shall occur at reasonable times and, if practical, with prior notice to the landowner.

Property Owner Printed Name Property Owner Signature Date

18 U.S.C §1001 provides that: Whoever, in any manner within the jurisdiction of any department or agency of the United States knowingly falsifies, conceals, or covers up by any trick, scheme, or device a material fact or makes any false, fictitious, or fraudulent statements or representations or makes or uses any false writing or document knowing same to contain any false, fictitious, or fraudulent statement or entry, shall be fined not more than \$10,000 or imprisoned not more than 5 years or both.
