Scott

I am commenting on the proposed development case 2023102411.

I would definitely prefer that this didn't happen since the whole area has been a nice and quiet neighborhood with homes scattered around with decent size lots. Cramming this many homes in such a small area is certainly going to require major traffic adjustments and I feel reduce the safety of the neighborhood. I am also concerned about the water supply since we all utilize the community well the Pattisons put in many years ago which unfortunately is now owned by Thurston PUD.

We live on Waldon Drive and have for over 40 years. Waldon is a quiet road with a cul-de-sac at the end. Many people on our road use it to walk, ride bikes and have children playing near. It appears to me from what I've seen that the intent is to open Waldon at the end to go through to 58th. I truly believe that would affect those of us that live on Waldon in a major manner with traffic going through since the residents honor and respect the road and travel at safe speeds for the activity that people use it. It looks like we may have just escaped losing our homes for a new airport, at least for now, it would be nice not to "lose them" to unneeded progress. This whole South East Thurston would be adversely affected by this development in my opinion

Thanks,

Dave Sutherland
