**Date:** Sunday, April 21, 2024 10:52:07 AM

---

Per the 24th Avenue West Olympia Plat proposal, I am requesting that the pending development permit require a public sewer connection terminal be made available to the northern adjoining parcel 83012300600 and other nearby properties. This would allow my neighbor and I to resolve our failing septic systems. Note that the 26th Ave area has been designated within the Urban Growth Boundary since the late 1980s but sewer access has never been provided. Five years ago this area was rated 3rd priority in gaining sewer access, but apparently we slipped to lower priority.

Steve Barrett, owner 83012200400 and 83012200500  
2101 26th Ave NW, Olympia, WA 98502
