Checklist Application

The above-referenced project has been routed to this department for review and comment. This project is proposing to cultivate geoduck on approximately 0.42 acres. The property is currently developed with a single family residence which is served by the Carlyon Beach Group A public water system and sewer. Restroom access for this project will be provided via access to the residence on the project parcel. No outside contractors are proposed to operate this project and all work will be done by the property owner and immediate family. **Environmental Health's review is complete and has no objection to this project.**

If you or the applicants have any questions regarding Environmental Health's review, I can be reached at (360) 867-2654 or kyle.overton@co.thurston.wa.us.
