**RE: Certificate of Need Application #24-12**

Dear Ms. Kido,

As the Thurston County Board of Commissioners, we write to share our support for MultiCare's application to provide vital home health services in Thurston County.

As community leaders who witness the fragility of our health care system daily, there are many aspects of the continuum of care that are not adequate or non-existent. Home Health is a crucial component for transitioning members of our community from an acute episode to recovery and ultimate independence.

Our county is growing, and the population is quickly outpacing the investments made in the health care delivery system. Having additional home health services will allow individuals to transition from hospital more quickly to home, where they will experience positive outcomes regardless of their payer or ability to pay. This is especially needed in our Medicare and Medicaid populations, often seniors with dementia and behavioral health issues. The increase of these services will mean a decrease in use of emergency rooms, Medic One response, and behavioral health crisis responders, creating a capacity increase and costs savings across our system.

Your favorable review of MultiCare's application to offer Home Health services will help bridge community access to better continuity of care and we urge your approval.

Sincerely,
