

# GET YOUR COVID-19 VACCINE

Help us keep classrooms safe, healthy and open!

## Vaccinated students:

- Can continue to attend school if they are a close contact of another person who tests positive for COVID-19, unless they show symptoms of the illness.
- Protect our teachers and staff.
- Help protect people in our community who can't get vaccinated yet.
- Are less likely to become very sick with COVID-19, become hospitalized or die.
- Are less likely to spread COVID-19 to others.
- Help stop the spread of COVID-19 in our community.

Being vaccinated keeps your child safer, keeps you at work, and keeps us all from worrying so much.

COVID-19 vaccines are available to anyone 12 and older.
