

COVID-19 WEEKLY UPDATE

Thurston County

Time Period Covered: March 11-June 21, 2020

Background

COVID-19 is a new illness caused by a coronavirus that had not been found in people prior to December 2019. The illness can cause severe health issues, including death. There is no vaccine to prevent the illness, no proven safe medications for use with COVID-19 and immunity among those who have had COVID-19 is not yet understood.

Summary

The first person diagnosed (confirmed) with COVID-19 was reported for Thurston County on 3/11/20. A person is diagnosed with COVID-19 if they have tested positive for the illness.

- As of 6/21/20, a total of 219 Thurston County residents had been diagnosed with COVID-19 and 4 residents had died from health issues related to COVID-19.

	Description	Total (cumulative)	Underlying Condition
As of 6/21/20	Laboratory (Viral) Tests for COVID-19	11,813 tests (2% positive)	
As of 6/21/20	Diagnosed with COVID-19 (confirmed/positive test)	219 residents	
	Recovered/Recovering	191 residents	
	Hospitalized	32 residents	65%
	Deaths	4 residents	100%
	Congregate Care Setting Outbreaks	2	

Note: An outbreak involves two or more linked cases of COVID-19. The number of outbreaks reported, does not equal the number of individuals involved.

Weekly

- The highest number of confirmed cases in a single week, occurred in Week 4 with 31 residents diagnosed with COVID-19.
- The current Thurston County 14-day total for newly diagnosed COVID-19 cases is 49, which combines Weeks 14 and 15.

Week (Monday-Sunday)	Total Diagnosed in Week	Running Total (cumulative)
Week 1 (3/9 – 3/15)	4	4
Week 2 (3/16 – 3/22)	6	10
Week 3 (3/23 – 3/29)	26	36
Week 4 (3/30 – 4/5)	31	67
Week 5 (4/6 – 4/12)	13	80
Week 6 (4/13 – 4/19)	12	92
Week 7 (4/20 – 4/26)	8	100
Week 8 (4/27 – 5/3)	12	112
Week 9 (5/4 – 5/10)	11	123
Week 10 (5/11 – 5/17)	4	127
Week 11 (5/18 – 5/24)	4	131
Week 12 (5/25 – 5/31)	23	154
Week 13 (6/1 – 6/7)	16	170
Week 14 (6/8 – 6/14)	23	193
Week 15 (6/15/20 – 6/21/20)	26	219

Race and Ethnicity

The main purpose of collecting data from individuals diagnosed with COVID-19 is to conduct a disease investigation that prevents further spread of the illness. Local disease investigations focus on identifying how an individual was exposed to COVID-19 and who they came into close contact with after being infected with COVID-19. Data on race and ethnicity are not connected to the spread of COVID-19 and may not be collected in every case.

- Thurston County residents who identify as Black and Hispanic are over-represented as a percent of COVID-19 confirmed cases when compared to the county's total population.

Thurston County As of 6/21/20	Percent of Residents Diagnosed with COVID-19	Percent of Total County Population
Race		
Asian	3%	6%
Black or African American	10%	3%
Native American	1%	2%
Native Hawaiian or Pacific Islander	0%	1%
White	81%	82%
Other	2%	Not available
Multiracial	3%	6%
Ethnicity		
Hispanic	19%	9%
Non-Hispanic	81%	91%

Native American includes American Indian and Alaska Native.

The percent Unknown for Thurston County residents diagnosed with COVID-19 was 34% for race and 37% for ethnicity as of 6/21/20.

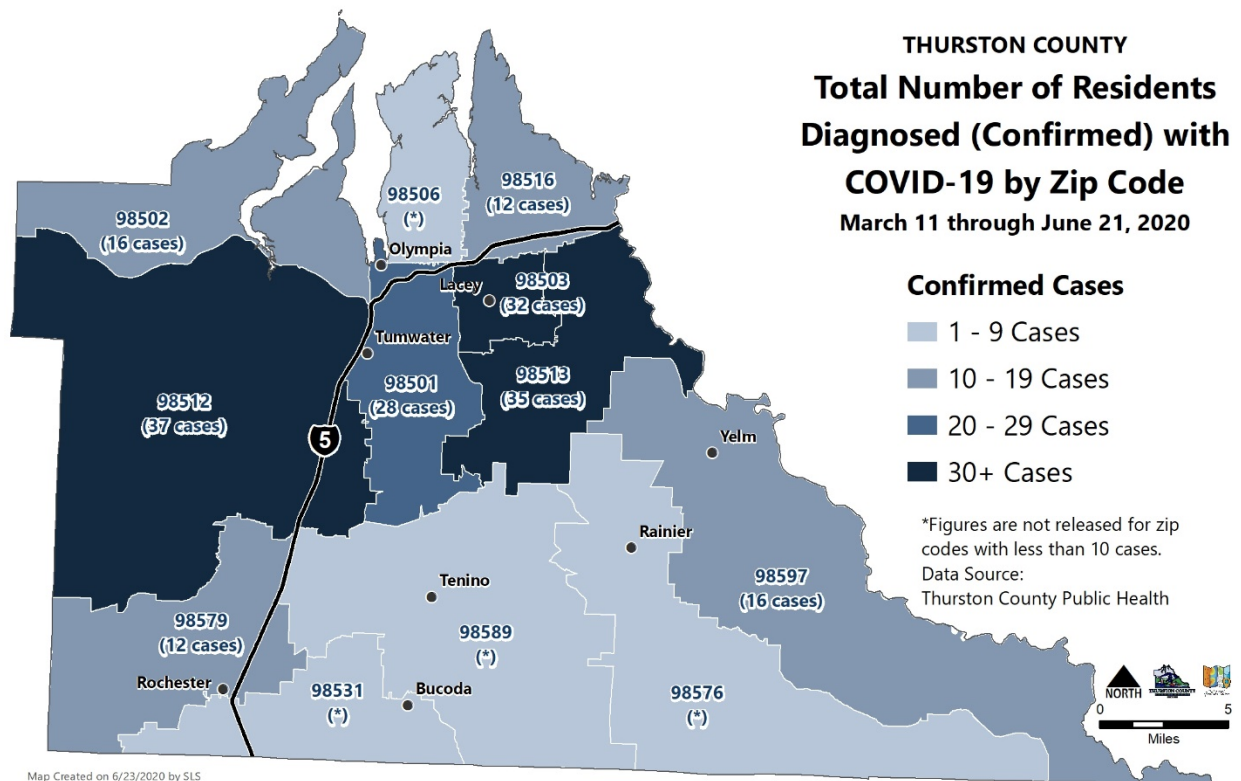

The percent Unknown for race/ethnicity across Washington State was 27% as of 6/21/20.

Figures may not add to 100% due to rounding.

Geography

The majority of Thurston County residents live in unincorporated areas of the county, meaning they live outside of city or town limits. Zip codes provide a way to view county data by a geography that includes both cities/towns and unincorporated areas.

- The Thurston County Public Health and Social Services Department does consider the county to be experiencing community spread. Community spread means we are seeing some county residents diagnosed with COVID-19 and cannot identify how or where they became infected with the illness.
- Residents from across Thurston County have been diagnosed with COVID-19.
 - The highest number of cases are in the 98512, 98513 and 98503 zip codes.
 - The zip codes that have seen an increase in number of confirmed cases since last week are:
 - 98501
 - 98502
 - 98503
 - 98512
 - 98513
 - 98516
 - 98576
 - 98589
 - 98597

Note: Zip codes are based on place of residence for confirmed cases.
Some zip codes in Thurston County are post office box (mail only) and are not included as a result.

Outbreaks

The following summary provides details about Congregate Care Setting Outbreaks currently under investigation in Thurston County. Outbreaks can involve county residents and individuals who are not from Thurston County.

- As of 6/21/20:
 - 2 Congregate Care Setting Outbreaks are under investigation.
 - 38 total individuals have been diagnosed with COVID-19 and are linked to these outbreaks.

Outbreak 1: Olympics West Retirement Inn

- Total: 36 confirmed cases, of which 3 individuals have died due to COVID-19.
 - Total Residents: 13
 - Total Staff: 15
 - Thurston County: 9
 - Outside of Thurston County: 6
 - Close contacts that have been confirmed to have COVID-19
 - Total Contacts: 8
 - Thurston County: 7
 - Outside of Thurston County: 1

Outbreak 2: Infinite Care Adult Family Home

- Total: 3 confirmed cases, of which 0 individuals have died due to COVID-19.
 - Total Residents: 1
 - Total Staff: 2
 - Thurston County = 2
 - Outside of Thurston County = 0
 - Close contacts that have been confirmed to have COVID-19
 - Total Contacts: 0
 - Thurston County = 0
 - Outside of Thurston County: 0

Notes:

- One confirmed case, a staff member of both facilities, is counted in both outbreaks.
- The investigation is ongoing.

Data Sources

- Laboratory test data are from the Washington State Department of Health (DOH) [2019 Novel Coronavirus Outbreak \(COVID-19\)](#) website.
- Diagnosed (Confirmed) with COVID-19, Underlying Condition, Congregate Care Setting Outbreak, Race and Ethnicity data are from the Thurston County Public Health and Social Services Department, Division of Disease Control and Prevention.
- County population data are 2019 estimates for residents of all ages from the Washington State Office of Financial Management.

Definitions

- Resident
 - An individual is counted as a resident if they live within the geographic boundaries of Thurston County. People whose permanent residence or address of record is located in Thurston County would be included.
- Diagnosed with COVID-19 (Confirmed)
 - An individual is counted as diagnosed with COVID-19, also called a confirmed case, if they had a laboratory (viral) test for COVID-19 and the test was positive for the illness.
- Recovered/Recovering:
 - An individual diagnosed with COVID-19 is counted as recovered, if they are not hospitalized, and have been released from public health isolation. Individuals who recover from the symptoms of COVID-19 may have ongoing health problems or health problems in the future as a result of the illness.
- Hospitalized:
 - An individual is counted as hospitalized if they were hospitalized at any time starting from the day diagnosed with COVID-19 to the day they were released from public health isolation. Individuals who die due to COVID-19 are included in the count, if they were hospitalized while being monitored by Public Health.
- Deaths
 - An individual is counted as a COVID-19 death if they were diagnosed with COVID-19 and died due to health complications related to the illness.
- Underlying Condition:
 - An individual is counted as having an underlying condition if, at the time of public health monitoring, a condition was identified through self-report by the individual, interviews, health care providers or medical records. Examples of underlying conditions of concern for COVID-19 are heart disease, diabetes, chronic lung disease, asthma, chronic liver disease and cancer.
- Congregate Care Setting:
 - Includes licensed facilities, such as nursing homes, assisted living, adult family homes, child care centers, schools, homeless shelters, jail, detention and other similar group care or placement settings.
- Outbreak:
 - An outbreak involves two or more linked cases of COVID-19. The number of outbreaks reported, does not equal the number of individuals involved.
- Public Health Isolation:
 - Isolation means an individual was ill and required to separate themselves from other people to prevent the possible spread of COVID-19 by order of the Thurston County Health Officer. Upon release from isolation, Public Health provides guidance on the current public health actions that should be followed for all residents (e.g. staying home, physical distancing when away from home, handwashing). Public health isolation can last

14 or more days and includes special requirements for health care workers/first responders.

- Race:
 - Race means the racial group or groups an individual says best describe them. Officially recognized racial groups include Asian, Black/African American, Native American (American Indian/Alaska Native), Native Hawaiian or other Pacific Islander and White.
 - If an individual identifies as being of two or more racial groups, they are included in the Multiracial group.
 - Individuals can choose Other as a racial group.
 - Ethnicity:
 - Hispanic is defined as an ethnicity and refers to an individual's culture or origin. An individual is described as either Hispanic or Non-Hispanic and can be of any race.
-
