

Completion Table for Calendar Year 2016 – Thurston County Treatment Sales Tax (TST)

January 1, 2016 through December 31, 2016

Graduation from a therapeutic court program typically takes between 1-2 years. Courts have requirements that must be met in order to graduate.

○ **NOTE:** Incomplete reporting due to missing reports from the following Thurston-Mason Behavioral Health Organization programs: Mentally Ill Offender Program and Nisqually Jail Intensive Case Management (both diversion and re-entry).

- ▶ Research on therapeutic courts shows that graduation, which involves completing recommended mental health and/or chemical dependency treatment, reduces future involvement in the justice system.
- ▶ Therapeutic courts increase the length of time participants stay in treatment, which produces benefits even if graduation is not achieved.

	THERAPEUTIC COURT RELATED List of Services	COMPLETION	# Completed in 2016	2016 CY Graduation Rate	Graduation Rate ^ Inception to 12/31/16	NOTES
