A-17-1: Development Code Amendments
2018 To 2019
Amend Preliminary Plat Extension of Time
(Title 18)

Date: September 4, 2019
Public Hearing Date: October 16, 2019, 7:00 p.m.
Prepared by: Ian Lefcourte, Associate Planner
Proponent/Applicant: Thurston County Long Range Planning Division of the Community Planning and Economic Development Department
Action Requested: Amend updates to Chapter 18.12 – “PRELIMINARY PLAT” to increase the length of time for approval extensions.

The amendment would also modify 18.08.133 “Department” to change the definition from “resource stewardship” to “community planning and economic development”. This would update the code to make the definition of the long-range planning department congruent with its current title.

WHAT IS THE ISSUE BEING ADDRESSED?
The number of years that the preliminary plat approval is valid. The purpose of the review is to determine if the platting process can be simplified and more cost effective. The County is following RCW 58.17.140, which defines rules for the time limitations to submit final plats after preliminary plat approval.
The criteria for approving an extension is not proposed to change. Current criteria require consistency with the comprehensive plan, applicable public health and safety standards, and no emerging adverse environmental issues.

BACKGROUND

Thurston County evaluated the methods for approving extensions of time for preliminary plats and modifying the duration of the extension in Section 18.12.150 TCC. Congruent with RCW 58.17.140, Section 18.12.150 TCC states that applicants have five years to submit a final plat for preliminary plats. However, RCW 58.17.140 also allows local jurisdictions to adopt procedures which allow extensions of time for plat approvals. Thurston County has created and adopted such extension procedures in 18.12.150 TCC.

The amendment proposal would change the length and amount of allowed extensions. The criteria for approving an extension is not proposed to change. Current criteria require consistency with the comprehensive plan, applicable public health and safety standards, and no emerging adverse environmental issues.

ANALYSIS

The subdivision of land into lots and tracts is governed by chapter 58.17 of the Revised Code of Washington (RCW) and by Thurston County Code (TCC) Title 18 – PLATTING AND SUBDIVISIONS. Subdivisions are defined in 18.08.310 TCC as “the division or redivision of contiguous land, for purposes of sale, lease, or transfer of ownership into five or more lots, any one of which is smaller than five acres or one-one hundred twenty-eights of a section of land.”

Plats are the maps of subdivisions that show the division of land into lots with associated public improvements (streets, dedications, easements). Preliminary (long) plats are defined in 18.08.230 TCC as a “neat and approximate drawing of a proposed subdivisions showing the general layout of streets and alleys, lot, blocks and other elements of a subdivision consistent with the requirements of this title. The preliminary plat shall be the basis for the approval or disapproval of the general layout of the subdivisions.” Final plats are defined in 18.08.160 TCC as the “final drawing of the subdivision and dedication prepared for filing for record with the county Auditor and containing all elements and requirements set forth in Chapter 58.17 RCW and in this title adopted pursuant thereto.”

Land divisions have a three-step approval process prior to the creation and sale of the lots:

- Preliminary plat approval: The approval of the general layout of the streets, lots, and verification of water availability, sewage disposal, Fire Department approval, and other requirements of Title 18 and the RCWs.
- Construction plan approval: The approval and construction of site improvements (if required), including but not limited to clearing and grading for the installation of stormwater facilities, streets, water lines, and sewage disposal systems.
- Final plat approval: Upon completion of the improvements, the final plat document is recorded and the lots are eligible for use, development, and sale.

Preliminary Plat (Subdivision) Review and Approval

Plats in Thurston County are reviewed under a Type III procedure and must comply with SEPA. A Type III procedure involves an application that is subject to standards which require the exercise of substantial discretion and about which there may be a broad public interest. A Type
III procedure is a quasi-judicial decision and requires a hearing examiner public hearing. The review time can be up to 148 days.

After all applicable review comments have been received by Planning, a public hearing will be scheduled before the Thurston County Hearing Examiner. After approval of the preliminary plat by the Hearing Examiner, all conditions outlined in the Examiner’s decision must be satisfied prior to final plat approval.

Duration of Approval
Once preliminary approval has been issued, the land division must be recorded within five years for a plat. An extension may be granted for plats upon request prior to expiration. For plats the request must be submitted at least 30 days prior.

RCW 58.17.140 establishes the time period for an applicant to submit a preliminary plat for final plat approval. The general rule is that the applicant has five years after preliminary plat approval in which to submit the plat for final approval. Counties may adopt procedures by ordinance for extensions of these time periods.

Final Plat (Subdivision) Approval
After all conditions of preliminary approval have been satisfied, the final map documents must be submitted by the applicant to Planning, along with the applicable review fee. Final map review takes approximately four weeks. After all County departments recommend final approval, the applicant will be contacted for the final map and recording fee. The final map will be recorded with the Thurston County Auditor’s Office. For plats, the staff recommendation is submitted to the Board of County Commissioners who make the final approval. Thus, the timeline may be longer.

Preliminary Plat Extensions in Thurston County
When a preliminary plat project struggles to meet the final plat approval deadlines, Thurston County has the discretion to offer extensions of the approval period. An extension may be granted if the department finds that the extension request is consistent with the adopted comprehensive plan, is consistent with applicable public health and safety standards, and there are no emerging adverse environmental issues relevant to the project. If the department finds that the extension request does not meet those conditions, the department shall schedule a public hearing before the hearing examiner to consider the extension request.

The County provides different extension regulations for three different types of preliminary plats, defined in 18.12.150 TCC (Duration of Approval).

<td>Up to 1, 1-year extension</td>
</tr>
</tbody>
</table>
WHAT ARE OTHER COUNTIES ARE DOING?

Staff reviewed seven other Washington counties to provide a regional context for preliminary plat extension regulations; Kitsap, Lewis, Skagit, Snohomish, Spokane, Whatcom, and Yakima. The counties established a five-year approval period for the initial preliminary plat, consistent with the requirements of RCW 58.17.140. Some of the counties defined the amount of years allowed for approval in their county code while others simply stated that approval must be compliant with RCW 58.17.140, such as Lewis County;

Lewis County (17.05.140 LCC): “Preliminary approval of land divisions shall be valid for the period specified in RCW 58.17.140, after which it shall expire. Prior to expiration, a complete application for final plat approval meeting all the legal requirements and conditions of approval shall be made.

Thurston County has three different sets of extension regulations for three different types of preliminary plats. All seven of the other counties had fewer sets of extension regulations. For example, Yakima County had one set of extension regulations for all types of preliminary plats.

Kitsap County
- Nonphased Development: One, one-year extension.
  - 21.04.270(B)(2) KCC
- Phased Development: Multiple, two-year extensions (a phase must have been given final approval within two years prior to each subsequent extension request).
  - 21.04.270(B)(1) KCC

Lewis County
- Nonphased Development: One, one-year extension.
  - 17.05.140(2)(b) LCC
- Phased Development: Multiple, two-year extensions (a phase must have been given final approval within two years prior to each subsequent extension request).
  - 17.05.140(2)(a) LCC

Skagit County
- No extensions (for projects after April 1, 2014).
  - 14.18.100(6)(f) SCC

Snohomish County
- One or more extensions, not to exceed a total extension time of two years.
  - 30.70.140 SCC

Spokane County
- Unlimited three-year extensions.
  - 12.100.118 SCC

Whatcom County
- Nonphased Development: One, one-year extension.
  - 21.05.039(2) WCC
- Phased Development: De facto built-in one-time five-year extension.
Item A-17: Plat Extensions

Yakima County
  • One, up to five-year extension.
    o 19.34.050(10)(c) YCC

WHAT ARE SELECT THURSTON COUNTY CITIES DOING?
Tumwater
  • Three, one-year extensions.
    o 17.14.080 (A), (B) TMC

Olympia
  • No extensions.
    o 17.20.30 OMC – mentions extensions but there is no other language in code that
      specifies extensions for preliminary plat removal.

Lacey
  • Unlimited one-year extensions.
    o 15.10.140 (C) LMC

CONSISTENCY WITH OTHER REGULATIONS, PLANS, AND POLICIES
In order to better serve the public good, the proposed regulatory modification and proposed
alternatives are consistent with Chapter 36.70A RCW, the Comprehensive Plan for Thurston
County, and the Thurston County Countywide Planning Policies.

RCW 36.70A
Per article XI, section 11 of the Washington State Constitution, “Any county…may make and
enforce within its limits all such local police, sanitary and other regulations as are not in conflict
with general laws”. The County, in the interest of serving the public health, safety, and general
welfare may set additional standards to those of the state in relation to permitting certain uses by
zoning district and their accompanying controls, such as: bulk regulations, i.e.- height, minimum
setbacks, which then would influence minimum lot size, and development coverage

Applying development regulations is guided by WAC 365-197-040, and refers to “project
consistency” as a matter of definition. Per RCW 36.70A.030, “Development regulations” means
“controls placed on land use activities”. RCW 36.70B.020, defines “Project permit application”
as essentially the mechanism necessary to engage in those activities “authorized by a
comprehensive plan.”

Together these defined terms encapsulate the purpose of development standards as necessary to
protect the environment and culminate in a permit evaluated by criteria substantiated by a
community’s comprehensive plan, defines application types, and is outlined in the content of the
applications for both building permits and various land use approvals.

Consistency with the Comprehensive Plan:
Staff identified the following Comprehensive Plan Goals, and associated Objectives and Policies
to be applicable, and did not find the proposed regulations to be inconsistent with the goals and
policies in the Thurston County Comprehensive Plan:
• Chapter 2 – Land Use
  o Goal 3: Land use planning and decisions making should ensure the highest degree of public health, safety, and general welfare within a quality living environment without unduly jeopardizing the rights of the individual.
    ▪ Objective C: Implementation of the Comprehensive Plan – Implement the Comprehensive Plan through county programs and regulations
      • Policy 3: Certainty, understanding, and efficiency of the permitting process should be promoted.
      • Policy 5: Regulations should be monitored to determine whether they are accomplishing their intended purposes.

• Chapter 4 – Housing
  o Goal 1: Enough housing should be available to meet the housing needs of the existing and projected population of the county.
    ▪ Objective C: The County should work to reduce barriers to affordable housing for low and moderate-income households.
      • Policy 1. The County should reduce, where appropriate, regulatory barriers and other requirements which add unnecessary costs and thereby discourage affordable housing construction.

Countywide Planning Policies
The County, in association with its seven cities and towns, developed and adopted GMA-required County-Wide Planning Policies. These now provide the planning framework that allows community individuality while ensuring regional consistency on major policy issues.

Staff found the proposed amendment to be consistent with the following Countywide Planning Policies:
  • I. General Policies:
    o 1.6 - Translate vision to policy and act on adopted local plans and policies. Consider the effects of decisions on achieving this vision, while balancing individual property rights with broader community needs and goals.
    o 1.10 - Meet basic human needs of clean water and air, healthy food, adequate housing, quality education, public safety, and equal access, regardless of socio-economic status.
  • III. Promotion of Contiguous and Orderly Development, Provision of Urban Services, and Protection of Rural Areas:
    o 3.4 – Provide capacity to accommodate planned growth
  • VIII. Affordable Housing:
    o 8.3 – Explore ways to reduce the costs of housing.
    o 8.6 – Regularly examine and modify policies that pose barriers to affordable housing.

FINANCIAL IMPACT
No quantifiable financial impacts have been identified at this time. Minimal staff time and resources are required to process preliminary plat extensions.

SUMMARY
The development code amendment updates Chapter 18.12 “PRELIMINARY PLAT” to update County regulations for preliminary plat extensions (18.12.150 TCC). The development code amendment also updates Chapter 18.08 “DEFINITIONS” to update the definition of “Department” (18.08.133 TCC). The proposed amendment provides time and flexibility for developers to complete their projects in compliance with Thurston regulations.

OPTIONS
Staff has developed two options for consideration to modify the plat extension process. Details for the options can be found in Attachments B and C, which are attached to the staff report. The following are the pros and cons for the proposed options.

A: Do not amend Chapters 18.08 and 18.12 with the proposed code language.
   Pros: No further staff time incurred for this project.
   Cons: Larger subdivision projects may not be able to be completed within the current timeframes allowed.

B: Amend Chapters 18.08 and 18.12 with proposed code language from Option B (Attachment B).
   Pros: Simplifies regulations for extensions, provides more time for extensions, lowers thresholds for larger preliminary plat projects to qualify for extensions. Updates definition of “department” from “resource stewardship” to “community planning and economic development”.
   Cons: The streamlined extension process could incentivize more development, which could add demand for County infrastructure.

C: Amend Chapters 18.08 and 18.12 with proposed code language from Option C (Attachment C).
   Pros: Simplifies regulations for extensions by classifying projects as either phased/nonphased development, provides more time for extensions. Updates definition of “department” from “resource stewardship” to “community planning and economic development”.
   Cons: The streamlined extension process could incentivize more development, which could add demand for County infrastructure.

DEPARTMENT RECOMMENDATION
Staff recommends Option C, and requests the Planning Commission set a public hearing for, October 16, 2019 at 7:00 p.m. (or soon thereafter) to receive public testimony on proposed amendments regulating Chapter 18.12 “PRELIMINARY PLAT” and Chapter 18.08 “DEFINITIONS”.

SEPA
An environmental determination for the proposed code amendment to sections related to signage in unincorporated Thurston County is required pursuant to WAC 197-11-704; and, will be completed prior to a public hearing on the amendments before the Board of County Commissioners.

NOTIFICATION
This briefing was posted online and sent to the Community Planning and Economic Development Department Community Planning Division’s webmail subscribers, and interested parties on file with this action.

After Planning Commission sets the date for a public hearing, notification will be posted online and published in *the Olympian* and sent to webmail subscribers at least twenty (20) days prior to the scheduled hearing.

**PUBLIC COMMENT**

None at this time.

Public comment will also be requested when a public hearing is set for the Planning Commission, and for the Board of County Commissioners.

**SOURCES**

The following organizations were sourced for this report; Thurston Long Range Planning, Thurston Current Planning, Municipal Research and Services Center, and Various Local Jurisdictions in Western Washington.

**ATTACHMENTS**

- Attachment A: RCW 58.17.140 Time limitation for approval or disapproval of plats—Extensions.
- Attachment B: Proposed Amendment Draft Code Option B – Bill Format
- Attachment C: Proposed Amendment Draft Code Option C – Bill Format
RCW 58.17.140

Time limitation for approval or disapproval of plats—Extensions.

(1) Preliminary plats of any proposed subdivision and dedication shall be approved, disapproved, or returned to the applicant for modification or correction within ninety days from date of filing thereof unless the applicant consents to an extension of such time period or the ninety day limitation is extended to include up to twenty-one days as specified under RCW 58.17.095(3): PROVIDED, That if an environmental impact statement is required as provided in RCW 43.21C.030, the ninety day period shall not include the time spent preparing and circulating the environmental impact statement by the local government agency.

(2) Final plats and short plats shall be approved, disapproved, or returned to the applicant within thirty days from the date of filing thereof, unless the applicant consents to an extension of such time period.

(3)

(a) Except as provided by (b) of this subsection, a final plat meeting all requirements of this chapter shall be submitted to the legislative body of the city, town, or county for approval within seven years of the date of preliminary plat approval if the date of preliminary plat approval is on or before December 31, 2014, and within five years of the date of preliminary plat approval if the date of preliminary plat approval is on or after January 1, 2015.

(b) A final plat meeting all requirements of this chapter shall be submitted to the legislative body of the city, town, or county for approval within ten years of the date of preliminary plat approval if the project is not subject to requirements adopted under chapter 90.58 RCW and the date of preliminary plat approval is on or before December 31, 2007.

(4) Nothing contained in this section shall act to prevent any city, town, or county from adopting by ordinance procedures which would allow extensions of time that may or may not contain additional or altered conditions and requirements.

[ 2013 c 16 § 1; 2012 c 92 § 1; 2010 c 79 § 1; 1995 c 68 § 1; 1986 c 233 § 2; 1983 c 121 § 3; 1981 c 293 § 7; 1974 ex.s. c 134 § 8; 1969 ex.s. c 271 § 14.]

Development Docket Item A-17 (Preliminary Plat Extension of Time) proposes to change the method for approving extensions of time for preliminary plats (subdivisions) and modify the duration of the extension in Section 18.12.150 TCC. This development code update creates amends 18.08.133 TCC (Definitions) and 18.12.150 (Preliminary Plats).
ATTACHMENT – A: AMENDED CHAPTER, Platting and Subdivisions, Definitions (Title 18)

Chapter 18.08 - DEFINITIONS

Sections:

18.08.133 - Department.

"Department" means the resource stewardship community planning and economic development department, its director, or its designee, unless, otherwise specified in this title.

ATTACHMENT – B: AMENDED CHAPTER, Platting and Subdivisions, Preliminary Plat (Title 18)

Chapter 18.12 – PRELIMINARY PLAT

Sections:

18.12.150 – Duration of approval.

The following definitions shall be used in the interpretation and administration of this title. The definition of various terms as presented in this section does not necessarily represent the same definitions as may be found for the same terms in other chapters of the Thurston County Code.

A. Approval of the preliminary plat shall be effective for five years from the date of approval, during which time a final plat or plats may be submitted. During this time the terms and conditions upon which the preliminary approval was given will not be changed without the applicant's consent. A final plat meeting all requirements of this title shall be submitted to the board of county commissioners for approval within five years of the date of preliminary plat approval. An applicant who files a written request with the department at least thirty calendar days before the expiration of this five-year period shall be granted a up to three one-year extensions of the approval period by the department; provided, that the department finds that the preliminary plat is consistent with the adopted comprehensive plan, is consistent with applicable public health and safety standards, and there are no emerging adverse environmental issues relevant to the project. If the department cannot make the above findings, the department shall schedule a public hearing before the hearing examiner to consider the requested one-year extension of time, in accordance with the procedures of this title and Chapter 2.06 TCC.

B. If the preliminary plat consists of more than two one hundred living units or lots and one-half ten percent of the total lots have received final plat approval, an applicant who files a written request with the department at least thirty calendar days before the expiration of the five-year approval period may be granted up to five one two-year extensions of the
approval period by the department; provided, that a final plat has been filed during each two-year extension. The department shall grant the extension of time upon finding that the preliminary plat is consistent with the adopted comprehensive plan, is consistent with applicable public health and safety standards and there are no emerging adverse environmental issues relevant to the project. If the department cannot make the above findings, the department shall schedule a public hearing before the hearing examiner to consider the requested one-year extension of time, in accordance with the procedures of this title and Chapter 2.06 TCC.

C. The provisions of subsection B of this section above shall apply to extensions of preliminary plats that have not expired prior to the effective date of this ordinance, with more than two hundred lots applied for or approved prior to the effective date of the ordinance codified in this section.*

D. The hearings examiner may approve a preliminary plat with a provisional extended approval clause, allowing sequential one-year extensions of the preliminary approval by the department, for up to ten years beyond the initial five-year approval, for a total of fifteen years, subject to all of the following conditions and Section 18.12.150(E), below:

1. The preliminary plat meets the requirements of Chapter 20.30A, Planned Rural Residential Development;
2. The preliminary plat includes four hundred or more residential units;
3. The preliminary plat reflects phased development over a period that is between six and fifteen years; and
4. The terms and conditions of preliminary approval may be changed if the legislative authority finds that a change of conditions creates a serious threat to the public health or safety in the subdivision.

E. The department may grant up to ten one-year extensions of preliminary approval for a preliminary plat that has been granted a provisional extended approval clause pursuant to Section 18.12.050(D), above, provided the following conditions are met:

1. The applicant files a written request with the department at least thirty calendar days before the expiration of the most recent preliminary approval period;
2. The department finds that the preliminary plat is consistent with the adopted comprehensive plan, is consistent with applicable health and safety standards, and there are no emerging adverse environmental issues relevant to the project; and
3. A final plat has been filed each year for all previous one-year extensions.

If the department cannot make the findings noted above, the department shall schedule a public hearing before the hearings examiner to consider the requested one-year extension of time, in accordance with the procedures of this title and Chapter 2.06 TCC.

FD. Knowledge of the expiration date and initiation of a request for extension of approval time is the responsibility of the applicant. Thurston County is not responsible for providing notification prior to expiration.
PLAT EXTENSIONS.

*Development Docket Item A-17 (Preliminary Plat Extension of Time) proposes to change the method for approving extensions of time for preliminary plats (subdivisions) and modify the duration of the extension in Section 18.12.150 TCC. This development code update creates amends 18.08.133 TCC (Definitions) and 18.12.150 (Preliminary Plats).*
ATTACHMENT – A: AMENDED CHAPTER, Platting and Subdivisions, Definitions (Title 18)

Chapter 18.08 - DEFINITIONS

Sections:

18.08.133 - Department.

"Department" means the resource stewardship community planning and economic development department, its director, or its designee, unless, otherwise specified in this title.

ATTACHMENT – B: AMENDED CHAPTER, Platting and Subdivisions, Preliminary Plat (Title 18)

Chapter 18.12 – PRELIMINARY PLAT

Sections:

18.12.150 – Duration of approval.

The following definitions shall be used in the interpretation and administration of this title. The definition of various terms as presented in this section does not necessarily represent the same definitions as may be found for the same terms in other chapters of the Thurston County Code.

A. Approval Length. Approval of the preliminary plat shall be effective for five years from the date of approval, during which time a final plat or plats may be submitted. During this time the terms and conditions upon which the preliminary approval was given will not be changed without the applicant's consent. A final plat meeting all requirements of this title shall be submitted to the board of county commissioners for approval within five years of the date of preliminary plat approval. An applicant who files a written request with the department at least thirty calendar days before the expiration of this five-year period shall be granted a one-year extension of the approval period by the department; provided, that the department finds that the preliminary plat is consistent with the adopted comprehensive plan, is consistent with applicable public health and safety standards, and there are no emerging adverse environmental issues relevant to the project. If the department cannot make the above findings, the department shall schedule a public hearing before the hearing examiner to consider the requested one-year extension of time, in accordance with the procedures of this title and Chapter 2.06 TCC.

B. Extensions.
1. Phased Development Extensions. Approved phased development may receive one two-year extension for each phase of the development, in accordance with the criteria in (C) of this section.

2. Nonphased Development Extensions. Except as otherwise provided in code, approved permits may receive one three-year extension in accordance with the criteria in subsection (C) of this section.

If the preliminary plat consists of more than two hundred living units or lots and one-half the total lots have received final plat approval, an applicant who files a written request with the department at least thirty calendar days before the expiration of the five year approval period may be granted up to five one-year extensions of the approval period by the department; provided, that a final plat has been filed each year. The department shall grant the extension of time upon finding that the preliminary plat is consistent with the adopted comprehensive plan, is consistent with applicable public health and safety standards and there are no emerging adverse environmental issues relevant to the project. If the department cannot make the above findings, the department shall schedule a public hearing before the hearing examiner to consider the requested one-year extension of time, in accordance with the procedures of this title and Chapter 2.06 TCC.

C. The provisions of subsection B of this section above shall apply to preliminary plats with more than two hundred lots applied for or approved prior to the effective date of the ordinance codified in this section.*

D. The hearings examiner may approve a preliminary plat with a provisional extended approval clause, allowing sequential one-year extensions of the preliminary approval by the department, for up to ten years beyond the initial five-year approval, for a total of fifteen years, subject to all of the following conditions and Section 18.12.150(E), below:

1. The preliminary plat meets the requirements of Chapter 20.30A, Planned Rural Residential Development;
2. The preliminary plat includes four hundred or more residential units;
3. The preliminary plat reflects phased development over a period that is between six and fifteen years; and
4. The terms and conditions of preliminary approval may be changed if the legislative authority finds that a change of conditions creates a serious threat to the public health or safety in the subdivision.

EC. The department may grant up to ten one-year extensions of preliminary approval for a preliminary plat that has been granted a provisional extended approval clause pursuant to Section 18.12.050(D), above, provided the following conditions are met:

1. The applicant files a written request with the department at least thirty calendar days before the expiration of the most recent preliminary approval period;
2. The department finds that the preliminary plat is consistent with the adopted comprehensive plan, is consistent with applicable health and safety standards,
and there are no emerging adverse environmental issues relevant to the project; and

3. Phased developments have submitted a phased development plan with their preliminary plat application; and A final plat has been filed each year for all previous one-year extensions.

4. The department finds that the extension for a preliminary plat does not exceed ten total years of extensions.

If the department cannot make the findings noted above, the department shall schedule a public hearing before the hearings examiner to consider the requested one-year extension of time, in accordance with the procedures of this title and Chapter 2.06 TCC.

FD. Knowledge of the expiration date and initiation of a request for extension of approval time is the responsibility of the applicant. Thurston County is not responsible for providing notification prior to expiration.
